G. O. P. PRECINCT CLUBS TO START EARLY CAMPAIGN

Biennial Elections to Be Held But Little Interest So Far Manifested

Tomorrow night the fall campaign for the legislative offices gets an early start. Republican precinct clubs throughout the territory will hold meetings for the nomination of officers and of delegates to the territorial convention to be held in Honolulu July 17. There are 29 precincts on this island and 41 in the territory. As the party's platform will be built by the convention and its leader for the next two years named, the personnel of the convention is important. Yet there seems to be no general interest in the meetings tomorrow night and it appears to be the consensus of opinion among the club officers interviewed that they will pass off peacefully, with no attempt to buck the regular ticket.

So far as could be learned no opposition to Lorrin Andrews, present chairman of the territorial central committee, has developed and he may be retained in office for another two years.

A slight conflict may develop in a few of the precincts, those who are familiar with political affairs feel, but there will be no "hot fight" and the majority of the clubs will nominate but one slate, to be voted on and elected, it is believed.

Besides the officers and territorial committeemen to be nominated and elected each club is to choose a county committeeman in September. A meeting of the county committees will be held on the same day as the territorial convention in each county seat and a county platform outlined.

SAN CARLOS HAS SPLENDID CROPS LETTER DECLARES

"In a letter to C. G. Bockus J. Clayton Nichols tells of a visit which he had recently paid to the San Carlos plantation on Occidental Negros, Philippine Islands. In this letter he says in part:

"On my return from Iloilo I stopped at San Carlos. They had 7500 tons of sugar in the warehouse and the crop not half off. They were crowding everything to the limit.

"The crankshaft of the crusher engine broke square across near the middle and they were on pins and needles for a month until it gave out. They got a propeller crankshaft from some ship in Hongkong that was the right length but 1-16 big. This was easily fixed and the shaft was received three days after the final break. Some people around San Carlos were talking of losing the whole crop but I think Bell would have been able to fix up the old shaft if he had not been able to secure the shaft from the steamship.

"The cane crop of Panay, Negros and Cebu is especially good this year. If it were not for the high freight rates to New York and San Francisco, planters would be offensively flush."

CHEFA RIDDLES ARE NO EVIDENCE OF ANY CRIME

Because they only had chefa riddles and not chefa tickets, Ah Yau and Ah Sing, two Chinese, were discharged from police court this morning. The prosecution explained that holders of

HOT WATER AND 'ANURIC' BEFORE MEALS—AND HEALTH

All people in America and especially those who are past middle age are prone to eat too much meat and in consequence deposit lime-salts in their arteries, veins and joints. They often suffer from twinges of rheumatism or lumbago, sometimes from gout, swollen hands or feet. Such people are not always able to exercise sufficiently in the outdoor air or drink enough pure water in order to sweat freely and excrete impurities through the skin. Dr. Pierce has conducted experiments and thoroughly tested a uric acid solvent at his Invalids' Hotel and Surgical Institute which he is convinced is many times more potent than lithia—this he named "Anuric." It can be had at almost all drug stores by simply asking for Dr. Pierce's Anuric for kidneys and backache. It will overcome such conditions as rheumatism, dropsical swellings, cold extremities, scalding and burning urine and sleeplessness due to constant need of getting out of bed at night. Our grandmothers have told our mothers and our mothers have in turn instructed us that in case of sickness, resort to Dr. Pierce's dependable household prescriptions. These medicines as put up for sale by druggists have never been recommended as "cure-alls," but only as superior remedies for certain common and easily-recognized diseases. Had these medicines been adopted to all classes and forms of chronic diseases there would have been no necessity for organizing a competent staff of expert physicians and surgeons, to act in the treatment of difficult, obscure and complicated cases of chronic diseases, as Dr. Pierce maintains in his Invalids' Hotel and Surgical Institute. Of his home remedies the most widely known are his "Favorite Prescription" for womanly troubles and run-down conditions peculiar to the womanly sex; his "Golden Medical Discovery," the greatest of all herbal system tonics and vitalizers, for stomach, liver and blood disorders, as well as his "Pleasant Pellets," the tiny, tonic laxatives, overcoming constipation and cleansing the system of poisons and accumulations in the bowels.—Adv.

ENGELS COPPER SHAREHOLDERS RECEIVE LETTER

Plans and prospects of the Engels Copper Company are discussed by the manager of that company in a letter written May 18 to Bishop & Company in answer to inquiries of Honolulu stockholders.

Relative to the proposed railroad

cheft tickets could be penalized under the statutes but holders of riddles could not.

It was explained further in court that the riddles is only the first stage or the beginning of cheft. In the latter the one guessing the proper word is the winner. In the riddles some inkling to the proper word is given.

the manager of the Engels company states that negotiations have been completed with the Western Pacific for a connecting line. It is impossible to estimate the cost very closely until bids for construction have been received, but it will probably require \$300,000 to \$350,000, of which \$140,000 has been deposited from the sale of stock and it is hoped the balance can be paid from earnings of the copper company in addition to payment of 12 per cent dividends.

The company is now turning out 600 tons of 38 per cent concentrates monthly of a value net of freight rates and smelter charges of from \$90,000 to \$100,000 with monthly expenditures of about \$45,000, leaving a net of from \$45,000 to \$55,000.

It is reported on the street here today that sales of Engels Copper in two days were in excess of 25,000 shares.

A canal connecting Marseilles with the River Rhones has been officially opened.

British imports in April increased \$10,230,000, while exports increased \$32,240,000.
